INSPECTION PROGRAMME

| | | | | |
|------------------------|------------|-----------------|---------------|--------------|
| Machine Model | Serial No. | Operating hours | Delivery Date | page 1(3) |
| Delivery inspection by | | | Dealer | |

Foreword

The Inspection Programme "Delivery Inspection" is to be used as a check on a machine upon its inspection before its delivery to the customer.

All completed Inspection Programmes must be kept on file by the relevant Volvo dealer.

NOTE!

Read and understand the safety instructions in the Operator's Manual and Service Information for the machine.

| Checking | Performed |
|---|--------------------------|
| 1 Check that the machine is equipped according to the order specification. Check that the machine is supplied with operator's manual, spare parts catalogue, DVD, environmental declaration and tool kit. If applicable also check that the machine is supplied with CD, CE-document, safety manual, warranty manual or operator's manual from sub suppliers. Any deviations should be reported to the sales department. | <input type="checkbox"/> |
| 2 Check that all visible components are installed correctly and free from damage. Check that safety equipment is installed correctly and free from damage. | <input type="checkbox"/> |
